

W5-004 can be described according to its walls, ceiling and floor. It has four walls. Three of the walls are light grey while the fourth is two-toned with light grey and dark grey tones. While three of the walls have no windows, the outside wall has six. There are two white boards. A clock hangs on the rear wall, and a phone is located next to one of the windows. In addition to the walls, W5-004 has a ceiling. It is dark grey. Pipes and vents crisscross the ceiling. Eight light fixtures hang overhead along with a projector. Finally, this room can be described according to its floor. Twenty-two desks are arranged on a multi-colored, striped carpet. This obviously is a classroom.
